

## Summertime

### The Tea Party

There's a place  
In my distant memory  
I've got to go, I've got to get there  
I've got to find what I seek  
Cause I've got a girl  
And I want to see sunshine in her hair  
I want to dance in the moonlight  
I want to breathe in the air... I'll take you there

It's the summertime  
People, it's the summertime

So come along because I know now  
There's a cabin by the lake  
Where we all get together with some friends  
And we all celebrate

Hey Mr DJ, come on now  
Bring the party to the moon  
Play some Led Zep, T-Rex  
Or give me Neil's Harvest Moon  
Cause that'll do

It's the summertime  
People, it's the summertime  
Yes, it is now

Hey hey, my my  
Hey people, it's the summertime  
Yes, it is now  
Let's get it on!

Hey hey, my my  
Hey people, it's the summertime

Ooh, it's the summertime  
Yes, it is now  
Ooh, it's the summertime  
Ooh...
