

Here I Stand

The Teens

I never loved - just one girl
Until I met you
You gave me something straight from the heart
That's why I love you
Now I've heard stories behind my back
That you've found somebody new
So you must tell me straight from the heart
Say it isn't true
Here I stand - here I stand
With my heart and my soul in your hands
Here I stand - here I stand
With my heart and my soul in your hands
We'll meet tomorrow - after school
In our usual place
What's that I see - tears on your face
Don't you know I love you
Here I stand - here I stand
With my heart and my soul in your hands
Here I stand - here I stand
Here I stand - here I stand
