

Driving out to nowhere  
Driving out to nowhere  
Days have lost their magic  
And I just don't care

Anymore, a-ny-more

Stuck in automatic  
I get lost in traffic  
Starin' in the mirror  
At an invisible man

Woah, I used to know, where did he go

Oh, Riverina  
I was calling to ya  
From the end of my road  
When they played you on the radio, the radio

Oh, Riverina  
Everyone can hear ya  
But I bet that you don't know  
How you saved me on the radio, the radio

Seven in the morning  
In another ghost town  
Wonderin' if you're out there  
And if you are did you wait, around  
To take me home, take me home

Oh, Riverina  
I was calling to ya  
From the end of my road  
When they played you on the radio, the radio

Oh, Riverina  
Everyone can hear ya  
But I bet that you don't know  
How you saved me on the radio, the radio

Oh, Riverina  
I was calling to ya  
From the end of my road  
When they played you on the radio, the radio

Oh, Riverina  
Everyone can hear ya  
But I bet that you don't know  
How you saved me on the radio, the radio
