

A Deeper Cut

The Temperance Movement

A deeper cut to draw my blood
So you can feel the wonder stuff
Who've I been kidding
Who am I kidding
That's enough

'Cause we're supposed to be beautiful
And all this time it's been ludicrous
There's always something in the way

A deeper cut than what you got
Before you knew the ins and outs
A sweeter death than all the rest
That's not how it works

'Cause we're supposed to be beautiful
And all this time it's been ludicrous
There's always something in the way

There's always something in the way
There's always something

There's always something
There's always something
Always something
There's always something
There's always something

A deeper, a deeper cut
There's always something
A deeper, a deeper cut
There's always something
A deeper, a deeper cut
There's always something
A deeper, a deeper cut
There's always something
A deeper, a deeper cut
There's always something
A deeper, a deeper cut
