

# Centrefold

## The Temperance Movement

May you ever be willing  
May you ever be so wrong  
Damn, I stay there shaking  
Wake up all them bad, bad thoughts  
Won't you find me a reason  
Not to hustle you, my sweet  
Bring your wine and your cupcakes  
Find the weaknesses in me, alright

How many times can you cough  
Before you break it off?  
How many times can you come  
Before you ain't got none?

She fair flies like an eagle  
I fell open like a centrefold, baby  
Fire breathing and she burn it up then down, let's get up  
I fell open like a centrefold  
Fair flies like an eagle  
I fell open like a centrefold, baby  
She looks fine when she winds and grinds, she knows that  
I fell open like a centrefold

Spit on all my education  
Dirty fingers on my holy vow  
Wear that dress made outta money  
Raise it up and show me  
All that I've been looking for  
Alright

How many times can you cough  
Before you break it off?  
How many times can you come  
Before you ain't got none?

She fair flies like an eagle  
I fell open like a centrefold, baby  
Fire breathing and she burn it up then down, let's get up  
I fell open like a centrefold  
Fair flies like an eagle  
I fell open like a centrefold, baby  
She looks fine when she winds and grinds, she knows that  
I fell open like a centrefold

(Alright)

Get up, get up  
Alright, alright, alright, alright  
Alright, alright, alright, alright

She fair flies like an eagle  
I fell open like a centrefold, baby  
Fire breathing and she burn it up then down, let's get up  
I fell open like a centrefold  
Fair flies like an eagle  
I fell open like a centrefold, baby  
She looks fine when she winds and grinds, she knows that

She fell open like a centrefold, alright

I fell open, I fell open

I fell open like a centerfold

I fell open, I fell open

I fell open like a centerfold
