

## Know For Sure

### The Temperance Movement

Take a cold hammer to the source of the pain  
You've been living comatose you'll come 'round again  
If I know you, you won't miss your chance my friend

I don't wanna get heavy but I gave you my soul  
Bought it back used but loved and cherished  
Turned by nobody I know  
This time I ain't letting go

Any time that you want me  
I've been there for you  
Followed you 'round like some monkey on a leash

Hits like a master when I'm down on the floor  
Young guns you're pretty won't you kick me some more  
I ain't so easy no I need romancing  
See if you want me better know for sure

Its been so long since you last dusted me down  
Better get your guard up sugar  
I'm ready for another go around  
This time you won't knock me down

Any time that you want me  
I've been there for you  
Followed you 'round like some monkey on a leash

Hits like a master when I'm down on the floor  
Young guns you're pretty won't you kick me some more  
I ain't so easy no I need romancing  
See if you want me better know for sure

Any time that you want me  
I've been there for you  
Followed you 'round like some monkey on a leash

Hits like a master when I'm down on the floor  
Young guns you're pretty won't you kick me some more  
I ain't so easy no I need romancing  
See if you want me better know for sure
