

Love and Devotion

The Temperance Movement

All my love and devotion!

When it comes down to it
Everybody's got a choice
You gotta stand up on your own two feet
But you can never never miss the beat

Don't miss the beat
Don't miss the beat
Don't miss the beat
Yeah

And when it comes down to it
Everybody gets turned
But there's nothing more to it
You make it right with all you've learned

All my love and devotion
I won't stop, I won't stop
'Til I get through to you
All my love and devotion
I won't stop, I won't stop
'Til I get through to you

You know it's all so easy
To never change your attitude
You're only digging down in defeat
Watch out you don't skip the beat

Don't skip the beat
Don't skip the beat
Don't skip the beat
Yeah

I ain't waste all my breath on you

All my love and devotion
I won't stop, I won't stop
'Til I get through to you
All my love and devotion
I won't stop, I won't stop
'Til I get through to you

All my love
All my love, all my love
All my time

All my love and devotion
I won't stop, I won't stop
'Til I get through to you
All my love and devotion
I won't stop, I won't stop
'Til I get through to you
