

Magnify

The Temperance Movement

You magnify, you varnish
I kick up stones, I expose I is
So rarified to have this
I gotta nose for a cosy place

You take your time and I will be there
Sing out my soul, I will be there for you
You take my time and I will be there
Sing out my soul, I will be there for you

You terrify, you tarnish
I spill out tones I never knew I had
You rectify, you ravage
Karma commotion on a daily scale

Calling all believers
Righteous and deceivers alike
Makers and the takers
Givers and receivers alright

You sow the seed you harvest
Some come like a pest in a vestibule
You caught the feed you witnessed
Humiliation on a daily scale

Calling all believers
Righteous and deceivers alike
Makers and the takers
Givers and receivers alright

Alright, alright
Hey now, hey now

Hey now, hey now

You take your time and I will be there
Sing out my soul, I will be there for you
You take my time time and I will be there
Sing out my soul, I will be there for you

Calling all believers
Righteous and deceivers alike
Makers and the takers
Givers and receivers alright

(I say one more time)
Calling all believers
Righteous and deceivers alike
Makers and the takers
Givers and receivers alright
