

Turn

The Temperance Movement

Lions at the feet of you waiting for a rumble
They came to try to steal from you
But you never gave up
Death songs with a swagger
Love songs for my brothers
I lay down my daggers and my guns

Singing come on you light me up
I know now that I believe in love
Move on wizen up
A change ain't always down to luck
I mourned you like a sickness
You blessed me with a love that burns
I lost myself within this
I never thought I'd see you turn

The one that got away from me
The one that made me stumble
I took all you gave to me
But it never was mine
The more I would fight for you
The more I lost sight of you
Losing myself more each time

Singing come on you light me up
I know now that I believe in love
Move on wizen up
A change ain't always down to luck
I mourned you like a sickness
You blessed me with a love that burns
I lost myself within this
I never thought I'd see you turn

I never never
Never thought I'd
Thought I'd see you
Turn around
I never never
Never thought I'd
Thought I'd see you
Turn around

Singing come on you light me up
I know now that I believe in love
Move on wizen up
A change ain't always down to luck
I mourned you like a sickness
You blessed me with a love that burns
I lost myself within this
I never thought I'd see you turn

I never never
Never thought I'd
Thought I'd see you
Turn around
