

False Faces

The Temptations

First you say that you want me
Make me quiver with desire
Acting like, you needing me, had my body on fire
But every minute was a night of show
Nothing really matters anymore
Am I dreaming is this a mirage
I never played this game before (ohhh)
Told me you'd love me forever
I guess I just wasn't clever
Enough to realize the look in you eyes
That your wearing a disguise

With your false faces, I just can't get with that (False Faces)
Strange faces, why you wanna take me there (False Faces)

I tried so hard to get close to you, to tell you what's on my mind
I reach out my hand for you, but you were gone every time
I never played this game before,
It's like effect of a pretty magic show yeaahhh
Am I dreaming is this a mirage
I never played this game before (ohhh)
Told me you'd love me forever
I guess I just wasn't clever
Enough to realize the look in you eyes
That your wearing a disguise

Acting like a chameleon, changing right before my eyes
You say one thing but mean another,
Tell me what your trying to hide under your

False faces, I just can't get with that (False Faces)
Strange faces, why you wanna take me there (False Faces)
I Don't want to go there no more (false faces)

Told me you'd love me forever
I guess I just wasn't clever
Enough to realize the look in you eyes
That your wearing a disguise
Acting like a chameleon, changing right before my eyes
You say one thing but mean another,
Tell me what your trying to hide under your (False faces)

False faces, I just can't get with that (False Faces)
Strange faces, why you wanna take me there (False Faces)
I Don't want to go there no more (false faces)
