

Just To Keep You In My Life

The Temptations

Just to keep you in my life
I live each day as if there'll be no more, whoa oh oh
You're my key to paradise
With you the best of love and life's in store, whoa oh oh

Ah, just to keep you in my life means everything to me
Need your lovin' just as much as the very air I breathe, oh
Since I found you I found my heart ain't been the same, no
And what you've found in me I guarantee it will never change

Just to keep you in my life (just to keep you in life)
Just to keep you in my life
Just to keep you in my life

You brought out the best in me
Finally I know what true love means, yeah
You gave life to fantasy
I thought that only lived inside my dreams, whoa oh oh

Ah, you came into my life like shelter from the storm
Your magic keeps my spirits high and your love keeps me warm, y
eah
You taught my ups and downs to live in harmony, yeah
Until the twelfth of never my desire will always be

Just to keep you in my life (just to keep you in my life)
Just to keep you in my life
Just to keep you in my life

Just to keep you in my life

And what we share each day put sunshine in my day
Endlessly I pray to god that it never slips away, no
Since I found you I found my heart ain't been the same, no
And what you've found in my I guarantee it will never change

You came into my life like shelter from the storm
Your magic keeps my spirits high and your love keeps me warm, y
eah
You taught my ups and downs to live in harmony now
Until the twelfth of never my desire will always be

Just to keep you in my life (it's all I wanna do)
Just to keep you in my life (spend the rest of my life right he
re with you)
Just to keep you in my life
Just to keep you in my life
