

Let It Reign

The Temptations

Listen to what this brother has to say

The world need change, the world need peace
Seen a lot of things just going on all up in the streets
Police all up in the streets while the people want justice (Uh)
They say sometimes you gotta stand alone, so it's just us
Y'all want some change for change, they'll be collateral
Temptations up on the track, it's mathematical (Doo-wop)
Sometimes I'm feeling up, sometimes I'm feeling down
It feel good, don't it? We gon' put it down (Doo-wop)
I flow phenomenal, verbally my abdominal
Play me, I'm like a domino, jumpin' just like Geronimo (Doo-wop)
I'ma go tell my story, they clockin' like it's work right
Equality is never debatable, that's a birthright (Doo-wop)
So love is hard labour, be peaceful to your neighbour
It's old school to new school, this be the new flavour (Doo-wop)
See, love is hard labour, be peaceful to your neighbour
It's old school to new school, this be the new flavour (Woo!)

We need peace, we need change
Save my soul, let it
We need peace, we need change
Save my soul, let it
We need peace, we need change
Save my soul, let it
We need peace, we need change
Save my soul

Can I get some love with a little side of peace?
Can I get some love with a little side of peace?
(Can I get some love) with a little side of peace?
(Can I get some love) with a little side of peace?
Can I get some love with a little side of peace?
Can I get some love with a little side of peace?
(Can I get some love) with a little side of peace?
(Can I get some love) with a little side of peace?

Ayo, sometimes in life, street ghetto take you through them darker places
Just keep the faith in God, and always, you can win the race
And that's on one accord, give praises to the Lord
See, being humble take you places can't afford (Hey, now) (Doo-wop)
'Cause life is mental, I play like instrumentals
I'm lookin' all around and can it be so simple (Oh oh) (Doo-wop)
'Cause life is mental, I play like instrumentals
I'm lookin' all around and can it be so simple

We need peace, we need change
Save my soul, let it
We need peace, we need change
Save my soul, let it
We need peace, we need change
Save my soul, let it
We need peace, we need change
Save my soul, let it

We need peace, we need change
Save my soul, let it

We need peace, we need change
Save my soul
