

Message To The World

The Temptations

Life is like a wheel that won't slow down (no)
One thing you can lay your money on (what goes around comes around)
Oh, when I say I'm the one, oh now (baby, baby I can't do nothing wrong)
Didn't last too long

But when thinking that you're always there
If I've got to start all over
Baby, I don't care

In my message to the world
Well, I know what I would say
Baby, I made a few mistakes
I almost let her get away

In my message to the world
Ain't no way that we can fall
It's gonna be better than it ever was
Cause baby we survived it all

Someone's always following close behind (woah)
When you think it comes so easy where (they move you high, you had your time)
)
Woo! (Baby, baby I understand, understand how the game is played)
I thought I had it made

If it hadn't been for all your love
I don't know if I'd have found
A way to rise above

In my message to the world
Well, I know what I would say
Baby, I made a few mistakes
I almost let her get away

In my message to the world
Ain't no way that we can fall
It's gonna be better than it ever was
Cause baby we survived it all

If it hadn't been for all your love
I don't know if I'd have found
A way to rise above

In my message to the world
Well, I know what I would say
Baby, I made a few mistakes
I almost let her get away

In my message to the world
Ain't no way that we can fall
It's gonna be better than it ever was
Cause baby we survived it all
