

## Mother Nature

## The Temptations

Go on and take your course  
And a-take me with you  
Hey, I wanna leave here, oh

Mother Nature  
Take the chains off me  
As long as I'm livin', livin'  
Hey, I wanna be free, hey

Come on and let your sweet wine  
Rush to my head  
And make me feel fine

Let me stand naked in the sun  
Hiding from no one  
Hey, hey, hey

Mother Nature  
Come on and do your thing  
I want to start feeling, hey  
All those good things you can bring  
Hey, hey

Day in, day out I learn to find  
Leaves me half alive  
And I'm going nowhere  
I can't live in this classic world  
It's killing me  
Can't you see  
You're the only one to turn to

Mother Nature  
Go on and take your course  
But take me with you, with you  
Hey, I wanna leave here

Mother, I wanna leave here  
Oh, Mother
