

Running

The Temptations

You just can't keep on running
You just can't keep on running
Hey!

Like a stranger passing by
You won't settle down for just one guy
Girl, I knew that from the start
There's mixed emotions in your heart

I hear your footsteps in the dark
You just can't keep on running
From the romance that you hide
You just can't keep on running
Keep on running from my love

Watching every move you make
I'll get you girl, you won't escape
Woman, chance after chance, well
You need a sexy gentleman

My heart's [?] and then
You just can't keep on running
No, no from the romance that you hide
Don't keep it inside, baby, baby
You just can't keep on running
Running from my love

Runaway child, running wild

Nowhere to run
Love's gonna get you
Did you feel you can run away from love
Nowhere to run
Love's gonna get you
You're only kidding yourself

You can't hide from love
You should know that
There's no need for you to run from mine
Love
You can love a chance
And you will see
That you just can't stop the feeling

You just can't keep on running
You just can't keep on running
