

Tempt Me

The Temptations

(Well, here we are) tempt me
(We are finally alone together) tempt me
(What are we gonna do?) tempt me
(We got all these time) tempt me with your love

Oh, I feel so good being with you baby
Moving so slow girl in front of me
Let me see you loose yourself in a sexy dream
Tell me no lies with those soulful eyes
Show me how much you need me tonight
(Tempt me)
Come on give me just a taste
(Tempt me)
I know your secret hiding place
(Take me)
Take me to heaven baby
But just make me wait a little longer, yeah

Tempt me with your sensuality
Take me to ecstasy
Come on over baby next to me
Come on tempt me with your love
Tempt me with your sensuality
Take me to ecstasy
Come on over baby next to me
Come on tempt me with your love

Lip so right in the firelight (in the firelight)
The rhythm of music makes the mood so fine (so fine)
Fill my desire with your smoldering fire (smoldering)
You and me together, oh it feels so right
(Taste me)
Come on and give me just a taste
(Tempt me)
I know, I know your secret hiding place
(Take me)
Take me, take me to heaven baby
Don't make me wait any little longer baby, yeah

Tempt me with your sensuality (sensuality)
Take me to ecstasy (take me baby)
Come on over baby next to me (ooo)
Come on tempt me with your love (I want you to dance for me)
Tempt me with your sensuality (I wanna watch you baby)
Take me to ecstasy (tempt me girl)
Come on over baby next to me (ooo tempt me with your love)
Come on tempt me with your love

Let your hair down and draw the shade (this is the night)
'Cause this is the night when dreams are made (tease me all night)
Tease me with your sweet and sexy smile (oo oh tempt me baby)
Come on lady, come on, tempt me tonight

Tempt me with your sensuality
Take me to ecstasy (I want from you)
Come on over baby next to me
Come on tempt me with your love (I wanna squeeze you)

Tempt me with your sensuality (I wanna look at you baby)
Take me to ecstasy (I'll make love as long as you want me to)
Come on over baby next to me
Come on tempt me with your love
