

## That's When You Need Love

### The Temptations

Sometimes, when you need an arm around you  
Sometimes, when you need a friend  
Life has you twistin' and turning  
You feel the need, the need to win

That's when you need love  
To help you in that hour  
That's when you need love  
To help you in that moment

You feel the need for tenderness  
Just a little bit of sweet happiness

Times, when you look around for shelter  
You need the warmth of someone else  
Sometimes, to be there close by you  
To help you, to help yourself

That's when you need love  
To help you in that hour  
That's when you need love  
To help you in that moment

I know you need love, yes you do  
'Cause everybody needs love, sometimes  
And baby I just want to tell you, sometime  
I know just what you need, ah girl  
I need the need to be needed  
Don't you feel the need sometimes?  
When you have the feeling  
something's missing  
You get an empty feeling inside  
I know what you need  
I know what you need  
I know just what you need

That's when you need love  
To help you in that hour  
That's when you need love  
To help you in that moment
