## The Temptations

I'm gon do it  
I'm gon do it

One lonely night  
I've decide to go out  
With some friends of mine  
Yeah yeah  
I was fresh, I must confess  
I was dressed to impress  
Paid twenty dollars at the door  
When I got in I got more than I bargain for

If by chance  
You happen to dance my way  
These are the words I would have say

Who wants to be like  
Who wants to be like  
The Jones  
Don't wanna be like the Jones  
Who wants to be like  
Who wants to be like  
The Jones

When the music started to play  
Took me away  
Somewhere I've never been before  
I met this girl she's somewhat of a cutie pie  
She really turned me on  
She happened to ask for a dance  
I didn't want to blow my one and only chance  
When the jam began to play  
These are the only words I can think of to say

I expected to go out  
Have a good time with my friends and find myself some peace of mind  
How was I to know that I  
Would me someone as gorgeous girl  
Turn out to be a waste of my time  
She told me her last name were Jones
