

# Remember The Time

The Teskey Brothers

I remember when we were in love  
I remember how it used to feel  
I remember when we were happy  
Was it a lie or was that real

Feels like we're going through changes  
We can't control the strain  
But we can't feel any pity or pain  
For the way in which we changed

Said I can't help but remember the time  
When I first took your hands in mine  
Oh we were in love that day, we were in love that day  
The memory I wanna stay, yeah  
The memory I wanna stay, oh

Did I take too much time to notice  
The way in which we drifted apart, oh baby  
So I guess we gotta find our own way  
Like strangers in a broken heart

But is there any rhyme or reason in trying to fight the change  
In our hearts I know where we wanna to be  
I know we can take the strain

But I can't help but remember the time  
When I first took your hands in mine  
Oh we were in love that day, we were in love that day  
The memory I wanna stay, yeah  
The memory I wanna stay, oh baby

Cos I don't think we can make it through  
Cos I know that this stuff is true

But I can't help but remember the time  
When I first took your hands in mine  
Oh we were in love that day, we were in love that day  
The memory I wanna stay  
The memory I wanna stay  
The memory I wanna stay, yeah  
The memory I wanna stay, yeah
