

Dogs of Lust

The The

Here they come
The Dogs of lust
Out of my mind
Into my life
Somebody should be here
To hold me
Somebody should be here
To show me (show me)

When you're lustful
When you're lonely
And the heat is risin' slowly

I got it blue
I got it bad
I got the sweetest sadness I ever had
As the hours pass before my eyes
As the hours pass before me

When you're lustful
When you're lonely
And the heat is risin' slowly

I keep reachin' up
But they drag me back down
Wherever I try to hide
I will always be found

When you're lustful
When you're lonely
And the heat is risin' slowly
Risin' risin' risin' slowly
Risin' risin' risin' risin' risin' slowly
