

# When I Was Afraid

## The Thermals

Time kept me line  
Kept me defined  
It kept me safe when I was afraid

Kept me in line  
Kept me defined  
It kept me sane when I was afraid

Counting the days  
Pacing the sky  
Holding every breath I had left in time

Gravity, I can't forget  
You saved my hide a thousand ways  
Gravity, I can't forgive  
You let me go  
I fell away when I was afraid

Falling away  
Out into space  
Losing all my breath when I was afraid

Love, it held me near  
You held me close  
I couldn't die when I was afraid  
You held me close  
I couldn't die  
I couldn't live when I was afraid

Fear was mine  
Fear was by my side  
It kept me well  
Hell, it kept me alive  
I counted days as they faded away  
I only felt sane when I was afraid
