

# Click My Fingers

## The Tide

If only I could click my fingers  
I'd make all of your wishes come true  
But I'm not a magician  
I can't make a grey sky seem blue

I know you're feeling anxious  
Saying to me, everything's okay  
You hide it like an actress  
With nothing but a smile on your face

Lay your head on my shoulder, I want you to know  
I'll stay with you forever as we both get old  
Forget about money, we don't need the gold, no

And I don't have superpowers  
But if I did, I'd use them for good  
And I would click my fingers  
And make all of your wishes come true

Whatever, whatever you go through  
Don't be scared  
And whatever, whatever you go through  
I'll be there  
Whatever, whatever you go through  
Don't be scared  
And whatever, whatever you go through  
I'll be there

Now let go of your troubles  
Don't you know that I'm here to help?  
So tell me 'bout your struggles  
So you don't have to struggle by yourself

I know you're feeling anxious  
Saying to me, everything's okay  
You hide it like an actress  
With nothing but a smile on your face

And I don't have superpowers  
But if I did, I'd use them for good  
And I would click my fingers  
And make all of your wishes come true

Whatever, whatever you go through  
Don't be scared  
And whatever, whatever you go through  
I'll be there  
Whatever, whatever you go through  
Don't be scared  
And whatever, whatever you go through  
I'll be there

Let me know  
You just gotta let me know

And I don't have superpowers  
But if I did, I'd use them for good

And I would click my fingers  
And make all of your wishes come true

Whatever, whatever you go through  
Don't be scared  
And whatever, whatever you go through  
I'll be there

You just gotta let me know
