

Fire

The Tide

I am fire, sexual desire
Everything you want and more
Can't keep quiet, but you haven't tried it
I think we should shut the door
And I won't give up now
I ain't seen no one like you
Turning love in a sound
Oh you love that things I do

And I know she move her body like a [?]
And I give my lips a moving and it's turning you on

Got me like loose choirs
That girl, she's on fire

Fire... fire... fire... sexual desire
Fire... she's on fire... fire... that girl, she's on fire

Open, whoppin', swimming like the ocean
She love when I feel her glass
Curvy, [?] killing me like scurvy
You know she can shake that ass
And I won't give up now
I ain't seen no one like you
Turning love in a sound
Oh you like that things I do

And I know she move her body like a [?]
And I give my lips a moving and it's turning you on

Got me like loose choirs
That girl, she's on fire

Fire... fire... fire... sexual desire
Fire... she's on fire... fire... that girl, she's on fire

She's shining like diamonds
I rode and love will rise
Put it in the clouds
We're everywhere just like horizon
Tell me that you love me when I'm in between your ties
Oh tell me if it's weird girl don't you tell me no more lies
She's fire, so fire, I don't need to lie to
I just do it like a druggie, she gon' get me higher
They say I got game but I just say I'm wiser...

Fire... fire... fire... that girl, she's on fire
Fire... she's on fire... fire... that girl, she's on fire
