

Paradise

The Tide

I don't wanna love like this, no
Come us too strong, too strong
I just want one more hit, yeah
It's been too long, too long

I'm no thief but aren't we?
Give me something we're talking 'bout
I don't wanna love like this, no
Come us too strong, too strong

Show me the good life, good life
Take me to paradise, you and I
Show me the good life, good life
Take me to paradise, you and I
I've been waiting too long, too long
And I've been getting of some, of some
Show me the good life, good life
Take me to paradise, you and I
Take me there

Won't call it quits, I had enough for feeling so numb
Wanna feel all of this inside, inside, inside, yeah

I'm no thief but aren't we?
Give me something we're talking 'bout
I don't wanna love like this, no
Come us too strong, too strong

Show me the good life, good life
Take me to paradise, you and I
Show me the good life, good life
Take me to paradise, you and I
I've been waiting too long, too long
I've been getting of some, of some
Show me the good life, good life
Take me to paradise, you and I
Take me there
