

Water everywhere

The Tiger Lillies

Water water everywhere
but not a drop to drink
So now your future like a flower
withers and shrinks
We pay for each one of our sins
so now we face our death
Each sailor aboard this ship
will soon take his last breath
So now you must face regret
and pay a heavy price
For each one of our sins
the worst is pride the vice
Water water everywhere
without a drop to drink
So now in hellish punishment
you are left to think
