Never Coming Back

The Tiny

Have you seen my man I've lost him
He took me for a ride
Now I can't seem to find him
We were flying high
Now I'm alone up here

Have you seen my man I've lost him
He took me for a drive
I never slept so good
Now I can't seem to find him
Hours floating by
And I'm alone up here
Betrayed by God

He never coming back he never coming back
He never come back
He never coming back he never coming back
He never come back
He never coming back he never coming back
He never come back
He never coming back he never coming back
He never come back
He never he never he never

Have you seen my man I've lost him
He taught me how to smile
I never laughed so hard
Now I can't seem to find him
Inside my head it calls me
I'm alone up here
Cold atmosphere
And I hear them call

He never coming back he never coming back
He never come back
He never coming back he never coming back
He never come back
He never coming back he never coming back
He never come back
He never coming back he never coming back
He never he never he never

He will never come back until I say these words
I will know it is real
He will never come back until I say these words
I will know it is real
He will never come back until I say those words
I will know it is real
He will never come back until I say these words
I will know it is real

Have you seen my man I've lost him
He took me for a ride I've never felt so good
Now I can't seem to find him
We were flying high
Now I'm alone out here

Have you seen my man I've lost him
We walked toward the sun
Now it's so cold in here
Now I can't seem to find him
Inside my head he calls me
I'm alone up here
Cold atmosphere

He will never come back until I say these words
I will know it is real
He will never come back until I say those words
I will know it is real
He will never come back until I say those words
I will know it is real
He will never come back until I say these words
I will know it is real
He will never come back until I say these words
I will know it is real

Real real real
