

There is trouble in the world today
Fundamental love has gone away,
Apathetic views is what we see
Are reflected in society.

Everybody needs to compromise,
Sit back in life and enjoy the ride.
Relieve the stress that's on your mind.
Life is so short and there ain't much time...

When will we be free, yeah
To live our lives properly?
Come on

If I was to tell you that I'm near,
To only tell the truth,
Won't you hear,
Wherever in the world
You may reside?
I'm only scaring
Myself with pride...
See, my old friend
Taught me that way,
Stay off the streets
And see another day.
Positive people let me
Hear you say...
That you want to live
You live our lives properly?
One for all are we...
To live our life properly.
