

Skaternity

The Toasters

Check your time and
check it everyday.
We move into the future times, no
mater what you say.
Ten long years is
quite a price to pay.
What we bring is good to you,
to ska, your future day.
Skaternity...
Now it's time to
kick it into gear.
We make the best of our time,
no one else can interfere.
We now say to get
your groove today.
The upbeat swing
that makes you away,
to ska, your future day...
Skaternity...
