

Bathroom Wall

The Tokens

I know that it says it all
Right there on the bathroom wall
Means as much as any book
I think I'm gonna have a look, yeah

People have so much to say
I can't think of a better way
See the may shades of ink
What a place to sit and think, yeah

People from the finest homes
Come to write their finest poems
Lots of things to make me laugh
Kilroy signed his autograph

Susan slept here
George Washington slept here
Everybody slept here
Everybody slept here

I know that it says it all
It's right there on the bathroom wall
Means as much as any book
I think I'm gonna have another look

And the two best words of all
That you see on every bathroom wall
Don't you know I'd say 'em if I could
They could never be misunderstood

Susan slept here
George Washington slept here
Everybody slept here
Everybody slept here
