

Behind Those Eyes

The Tony Danza Tapdance Extravaganza

I've seen this place before (3x)

This is where the light and the dark will meet Hand in hand, carry blood into the street From bent to broke claws shred into their truth

I've seen this place before (2x)

I've seen you crying So there must be something behind those eyes

I've seen this place before (2x)

I've seen you crying So there must be something behind those eyes

Walked into the dark (4x)

Only to see the light!
