

Done And Done

The Tragically Hip

Done and done
I never get my way
You always get your way
I never get my way

Done and done
Talk about me
I'll listen for hours
'Cause I don't know how it ends

We're through, through
Through and through
Yeah, through, through
Through and through

Done and done
You always get your way
I never get my way
You always get your way

Done and done
Days accomplished
If I had a wish
It'd be for more of this

This through, through
Through and through
Yeah, through, through
Through and through

Done and done
Night accomplished
If I had a wish
I'd wish for more of this

This through, through
This through and through
We're through, through
Yeah, through and through
