I am the party of the first heart, you are the party of the second
Whereas we propose to have fun, the fun has just begun

We just got to tune into each other
Can't be afraid to touch one another

You don't have to worry or speculate
You don't need a lawyer to negotiate
Listen

I guarantee to satisfy
If there's a problem I'll indemnify

I do hereby claim the right
To have your body with me all night
It's understood and I agree
To give you all the love you need

I just got to have you for myself
Yes I have
You can't deal with no one else
No you can't
I fulfill your womanly desires
I promise you it's more than you require, yes it will
You've got the option to be free
But if you sign it, it's exclusively
