

Come On Home

The Tremeloes

When you told me you would leavin'
You said it was for the best
'Cause I found out the reason why
I'm sorry, baby, that I made you cry
Oh, won't you come on home to me now
I said let's forget about the past
I'm tired of waiting alone to see the light
If you're gonna come back to me
Baby, baby
I feel inside me no better
That I'm gonna feel forever
Without you near me, I can't explain
What makes you say, what I say over again
Oh, won't you come on home to me now
I said let's forget about the past
I'm tired of waiting alone to see the light
If you're gonna come back to me
Baby, baby
You know I didn't wanna hurt you, now
Believe me, baby, baby
You know I didn't wanna hurt you down
'Cause you walked out of me
Now, I'm sorry
The day you come back to me
Is the only day I will be
The love again, I know it's true
Do what I say, do what I'm asking you
Oh, won't you come on home to me now
I said let's forget about the past
I'm tired of waiting alone to see the light
If you're gonna come back to me
Baby, baby
I said my little baby, baby
Yeah, baby, baby
