

Let the Great World Spin

The Trews

All my life's been a struggle
But I'm never giving in
In the ashes and the rubble of the places that I've been
Follow me, I'm no beauty but I'm not without my charms
Call it faith or sense of duty
Sound the renegade alarm

Let the great world spin
Let the great world spin and spin
Let the great world spin
Let the great world spin and spin
Out of control

Lost my my way looking for you
Trying to make it all worthwhile
In a bar trying to call you
But I don't know who to dial

Let the great world spin
Let the great world spin and spin
Let the great world spin
Let the great world spin and spin
Out of control

It feels like coming home
Out of control
It feels like coming home
Out of control
It feels like coming home
Out of control
It feels like coming home
Out of control

Lost connections on the line
No one's gonna stop the time
I need a quick fix for my pride
Isolation overdrive
Let the madness blow your mind
Let the madness blow your mind
Let the madness blow your mind
Let the madness blow your mind

Let the great world spin
Let the great world spin and spin
Let the great world spin
Let the great world spin and spin
Out of control

It feels like coming home
Out of control
It feels like coming home
Out of control
It feels like coming home
Out of control
It feels like coming home
Out of control
[repeat to end]
