

Lotta Work / Little Love

The Trews

An ounce of prevention's worth a pound of the cure
You get the disease and then you know for sure
You do what you do and you get what you got
And I do it again because you're so fucking hot

It's a lotta work for a little love
But I don't mind if you...

Take me to another planet
It's written in the stars
There ain't no way we're gonna panic
We're more than what we are
Take me to another planet

I need some holy peace and real communication
I'm dry as the desert, I need precipitation
I'm ready to dive in without an ounce of hesitation
Don't pity me 'cause it's an awesome desperation

It's a lotta work for a little love
But I don't mind if you...

Take me to another planet
It's written in the stars
There ain't no way we're gonna panic
We're more than what we are
Take me to another planet

Take me to another planet
It's written in the stars
There ain't no way we're gonna panic
We're more than what we are

Take me to another planet
It's written in the stars
There ain't no way we're gonna panic
Take me to another planet

Take me to another planet

You're riding on high 'til you've got to get off [2x]
