

# Lovelock

The Trews

Hey there mama don't ya dig the sight  
Of the late comers on a Saturday night  
We're in Lovelock Nevada tonight  
Tell them desert stars to shine  
We've got love-locked throw away the key  
From now on it's you and me  
Johnny B and sweet Marie  
Rolling with the tumbleweeds

I said you  
We ain't lonely  
You  
We're hungry  
You  
Love lock me away

We don't got too much to our names  
Just enough to clear these plains  
This wheel, this heart, the sand, each grain  
They're all yours, one in the same  
If we find out that love ain't free  
We'll start ourselves a company  
Your old man's got a bit of money  
He'll do it for you though he don't like me

I said you  
We ain't lonely  
You  
We're hungry  
You  
Love lock me away

I said you  
Don't worry  
You  
Just hold me  
You  
Love lock me away

'Cause we've got nothing but time  
Everything's alright  
We've got nothing but time  
Everything's alright

Look at them kids they look just like us  
When we were fools on a west bound bus  
I hope they know that there's no rush  
I hope they stay love locked

You  
We ain't lonely  
You  
We're hungry  
You  
Love lock me away

I said you

Don't worry  
You  
Just hold me  
You  
Love lock me away

'Cause we've got nothing but time  
Everything's alright  
We've got nothing but time  
Everything's alright

Love lock me away  
Love lock me away  
Love lock me away

Love lock me away  
Love lock me away  
Love lock me away
