

## Takes Me a While

The Trews

I'm the man, the man that wants it all  
I'm not that original  
Better men than me have tried and failed  
Others wait around for miracles

It takes me a while  
It takes me a while  
But I get there...  
It takes me a while  
It takes me a while

Broken loser in a high school hall (It takes me awhile)  
I never seem to have the wherewithal  
My tongue is tied, my eyes locked up in jail (It takes me awhile)  
Busting out just like a wrecking ball

It takes me a while  
It takes me a while  
But I get there...  
It takes me a while  
It takes me a while  
But I get there...  
It takes me a while  
It takes me a while  
But I get there...  
It takes me a while  
It takes me a while

I got nothing in the race  
Where everybody's just saving face  
So tell me how long 'til they reach a higher place

It takes me a while  
It takes me a while  
But I get there...  
It takes me a while  
It takes me a while  
But I get there...  
It takes me a while  
It takes me a while  
It takes me a while  
It takes me a while  
It takes me a while  
It takes me a while  
But I get there...
