

Time's Speeding Up

The Trews

Time's speeding up, I can't explain it
Every moment slowly erases
I wish I never turned it down
Wish I listened to every sound
You had me singing
You brought me to places that I could believe in
I wish I could've slowed it down
Where are you right now?

Time's speeding up and no moment's forever
We're broken and perfect, remember the embers
Of every fire you had to put out on the way to your self
Don't stop me now

Time's speeding up, never confuse
Movement with action while paying your dues
I knew I never left the ground
Wild eyed and reckless, more lost than found

Straight through the silence
Useless and young
After all is said and done
More was said than done

Time's speeding up and no moment's forever
We're broken and perfect, remember the embers
Of every fire you had to put out on the way to your self
Don't stop me now

Time's speeding up
Look what you're running from, look what you're running from
Time's speeding up
Look what you're running from, look what you're running from
Time's speeding up
Look what you're running from, look what you're running from
Time's speeding up
Look what you're running from, look what you're running, running

Time's speeding up, let's get it on
Reality dawns, the fantasy's gone
Stop, just wanna feel it
Trying to make sense is no way to reveal it

Straight through the silence
Useless and young
After all was said and done
More was said than done

Time's speeding up and no moment's forever
We're broken and perfect, remember the embers
Of every fire you had to put out on the way to your self
Don't stop me now

Time's speeding up
Time's speeding up and no moment's forever (Don't stop me now)
We're broken and perfect, remember the embers (Don't stop me now)
Time's speeding up

Of every fire you had to put out (Don't stop me now)
On the way to your self (Don't stop me now)
Time's speeding up
