

# What's Your Game

The Troggs

Hey babe, what's your game?  
Don't you know that it's a shame?  
I said hey hey, what what's your game?

Hey babe, remember me  
I'm the one who set you free  
I said hey hey, what what's your game?

Last night I saw you huggin' and kissin' him  
I thought you were at home but said you spent the whole night t  
hrough  
I said hey hey, what what's your game?

Hey babe, what is wrong?  
Any point me holding on?  
I said hey hey, what what's your game?

Hey babe, this ain't right  
Just wanna kiss, don't wanna fight  
I said hey hey, what what's your game?

I know that things are changing, changing by the way you act  
The things you say and do have given me a heart attack  
I said hey hey, what what's your game?

What's your game?

Hey babe, what is wrong?  
Any point me holding on?  
I said hey hey, what what's your game?

Hey babe, this ain't right  
Just wanna kiss, don't wanna fight  
I said hey hey, what what's your game?

I know that things are changing, changing by the way you act  
The things you say and do have given me a heart attack  
I said hey hey, what what's your game?

What's your game?  
What's your game now?  
What's your game?

...
