

# Turn Me On

The Tubes

Turn me on 'cause I need it now  
Turn me on 'cause I don't know how  
Pick me up and shake me  
Tune me in and take me  
Lights are bright and the music's loud

Let me know what I need to know  
Make me go where I want to go  
Let me stand and wonder  
Let me feel the thunder  
See the lightning and the picture show

Put your hand on the power

Turn me on again and again  
Say you're always gonna be my friend  
Love me like you mean it  
Make a mess and clean it  
Don't you stop 'til I tell you when

Got a feeling something's taken hold  
'Cause I'm flying by remote control  
No misunderstanding  
Before I make a landing  
I'll lose my mind and I'll trade my soul

Put your hand on the power

When I look you in the eye  
Then it's everything I need  
Let me look you in the eye  
'Til the spell comes over me

Turn me on  
Making the colors bright  
Turn me on  
Making it go all night

Turn me on  
Giving me louder sound  
Turn me on  
Making it spin around

Turn me on  
Sing and dance for me  
Turn me on  
Keeping me company

Turn me on  
Making it fast and hot  
Turn me on  
Give me a different shot

Put your hand on the power and

Turn me on  
Making the colors bright

Turn me on  
Making it go all night

Turn me on  
Giving me louder sound  
Turn me on  
Making it spin around

Turn me on  
Sing and dance for me  
Turn me on  
Keeping me company

Turn me on  
Making it fast and hot  
Turn me on  
Give me a different shot

Put your hand on the power  
And why don't you turn me on
