

# Somewhere Friday Night

The Turtles

Tonight, tonight  
Tonight, tonight

And now it's night  
Halloween for love comes out in city lights  
And where am I?  
Somewhere with you  
And I don't know the reason why

Don't get it wrong  
We just happened to sing a whole different song  
Both of us right  
But there's something wrong here  
Somewhere Friday night, tonight

Could this be space?  
I'm paralyzed without a time, without a place  
Inside a maze  
When no one's ever been and few will ever be

And I gotta say  
That there's just room for one, so you must go away  
I know you tried  
But this is my world somehow  
Somewhere Friday night, tonight

Don't get it wrong  
We just happened to sing a whole different song  
Both of us right  
But there is something wrong here  
Somewhere Friday night, tonight

Tonight, tonight  
Tonight, tonight  
Tonight, tonight
