

It Ain't You

The Twang

It ain't you, it's just nothing's ever ideal
It ain't you, it's just nothing's ever ideal
Sometimes it's cold, and things just seem so old
But I just think about when the sun is out
What's wrong?
I'm probably never gonna understand
What it is I'd been missing
I'm probably never gonna understand
What it is I'd been needing
Why do I still waste all my time round here for?
I wish you'll never see my love for you

It ain't you, it's just nothing's ever ideal
It ain't you, it's just nothing's ever ideal
Sometimes it's cold, and things just seem so old
But I just think about when the sun is out
What's wrong?
I'm probably never gonna understand
What it is I'd been missing
I'm probably never gonna understand
What it is I'd been needing
Why do I still waste all my time round here for?
I wish you'll never see my love for you
