

## Larry Lizard

The Twang

Green light to breathe out  
Green light to breathe out  
Green light to breathe out  
Green light to breathe out  
Green light to breathe out...

Larry Lizard made an effect with the scissors  
Then went back to the party  
And he snuck in and he proved  
That the stalkers haven't finished after the party  
He never swims, he never heard 'bout the chimney  
Come with a meaning before me  
Funny that the snoozie is hotter than  
The Jacuzzi is the quietest spot through the doorway

Larry Lizard got a taste for the blizzard  
And was thus seen hitching on the highway  
He saw the tele and the bond in Nelly  
We need a place to hide away  
You hear the smother, and he murdered his brother  
So it was not his intention  
But Larry had to customize, so he confessed to those lies  
Far too many dimensions

We don't talk about it  
N Don't even think about it  
But he's lost without him  
And he don't know what to do without him  
He can't live without him  
Can't shout without him  
And he don't know what to do without him

Green light to breathe out  
Green light to breathe out  
Green light to breathe out  
Green light to breathe out  
Green light to breathe out...

We don't talk about it  
Don't even think about it  
But he's lost without him  
And he don't know what to do without him  
He can't live without him  
Can't shout without him  
And he don't know what to do without him  
Green light to breathe out
