

Nothing Gets Better

The Twang

If my heads gonna swim
Then my body's gonna butterfly
I'm enthralled by inexplicable complexes

Nothing gets better
If anything it gets worse
Nothing gets better
If anything it gets worse

An awkward pause
Is something that I've never liked
You never notice
Cause you've never felt what it's like

Nothing gets better
If anything it gets worse
Nothing gets better
If anything it gets worse

You drive me to the shore
I'm only sure of one thing
And I'm enthralled
How you're trying but I'm staying in

Nothing gets better
If anything it gets worse
Nothing gets better
If anything it gets worse

Keep handing the day
Keep getting up
Standing and playing
For the strands of a family decaying
As the camera pans as you're praying
Cause the years are sneaking off
You eat, you scoff
The peaks, the troughs
You keep belief to beat them off
Delete the grief to breathe on top
