

The Wobble

The Twang

Now, what do you take me for?
A noose tied seems too loose for me
Not gonna spend my time, open doors
Now, what do you take me for?
A noose tied seems too loose for me
Not gonna spend my time, open doors
Free, oh, I get it, I got your game
The last minute that I could see a friend
On the record they just snagged your name
Well, I do it for me

Oh, I get it, yeah, I got your game
The last minute you put me in a friend
I don't know wickeds that would know your name
Well, I do it for me
Well, I do it for me

Does it weep? Kinda wobbles when I touch
For me here, from a luxury wobble, wobble, wobble
I think I love you, don't need to know you
I shiver with the thought

Gotta make sure of the plan
(Wobble, wobble)
We'll make it up as we go
(I'm ma marble)
Cause everything needs to show
(I'm ma marble)
The answer still stands on the tongue

High terms is what you're living for
You've had enough, but you keep going back for more
Don't wanna waste your time talking to me

Oh, I get it, yeah, I got your game
The last minute you put me in a friend
I don't know wickeds that would know your name
Well, I do it for me
Well, I do it for me

Does it weep? Kinda wobbles when I touch
For me here, from a luxury wobble, wobble, wobble
I think I love you, don't need to know you
I shiver with the thought
