

# We're a Crowd

The Twang

Something's not right today  
I'm gonna try and walk it off  
Through shattered window panes  
I can hear the people talking  
No smiles and no hellos  
And no one seems to know the answer why this city's sick  
And the bus is full of people leaving

I could trouble you like you trouble me  
And I ain't too scared to face you  
I could trouble you like you trouble me  
And I ain't too scared to face you  
'Cause this is our town and we live here  
This is our town and we're a crowd  
'Cause this is our town and we live here  
This is our town and we're a crowd

I could trouble you like you trouble me  
A ripped up coat there lay  
On a patch of land where children play  
They're probably tucked up safe  
But I worry for the story  
No smiles and no hellos  
And no one seems to know the time in which the tide will turn  
And we can bathe in glory

I could trouble you like you trouble me  
And I ain't too scared to face you  
I could trouble you like you trouble me  
And I ain't too scared to face you  
'Cause this is our town and we live here  
This is our town and we're a crowd

This is our town and we live here  
This is our town, this is our town  
It ain't yours, it ain't mine, this is our town  
It ain't yours, it ain't mine, this is our town  
It ain't yours, it ain't mine, this is our town  
It ain't yours, it ain't mine, this is our town  
It' ain't yours, it ain't yours, it ain't mine

'Cause this is our town and we live here  
This is our town and we're a crowd  
'Cause this is our town and we live here  
This is our town and we're a crowd  
'Cause this is our town and we live here  
This is our town and we're a crowd  
'Cause this is our town and we live here  
This is our town, this is our town
