

Drown So I Can Watch

The Twilight Sad

I put you through hell
But you carried it oh so well
You carried it oh so well
Don't you?

We've come to far
But no one knows who you are

So carry me away from here
Carry me away from here
You carry me away from here

I put you through hell
But you carried it oh so well
You carried it oh so well
Don't you?

So tell me that you want me now
And tell me I don't mind you now
No, I can't go

She'll carry me away from here
She'll carry me away from here
She'll carry me away from here

You carry me away from here
You carry me away from here
You carry me away from here

There's a girl on my shoulder
Suffocate on my shoulder
There's a girl on my shoulder

Just slow, we come
My friend I know, too slow
There's no other way to go
Too slow, we come
My friend, I know too slow
There's no other way to go
