

# I Couldn't Say It to Your Face

The Twilight Sad

I couldn't say it to your face, but I won't be around any more  
I couldn't say it to your face, but I won't be around any more  
I needed a place, so I walked in the door

I couldn't say it to your face, but I won't be around any more  
It's my world, it's my song, didn't ask you to sing along  
in my arms, you girl, you won't be here to say I'm wrong

I couldn't say it to your face but I won't be around any more  
I couldn't say it to your face, but I won't be around any more  
I needed some space, so I walked out the door  
I couldn't say it to your face, but I won't be around any more

I heard them say maybe some day I'd have to pay  
I don't say one word to you that you know I'm going away  
I couldn't say it to your face, but I won't be around any more

I couldn't say it to your face, but I won't be around any more  
I needed a place, so I walked in the door  
I couldn't say it to your face, but I won't be around any more
