

Leave the House

The Twilight Sad

So what do you care for?
There's no one in the right
There's no one in the right
There's no one in the right

So what do you care for?
And I see you
I see you
I see you
I see you

And say where
Where you go away

You'll see girl
It's only in the dark
Only in the dark
When you come out
It's only in the dark

So what do you care for?
Because there's no one in the right
No one in the right
No one in the right

So what do you care for?
Say where
Where you go away
Where you go away and I won't call her

You'll see girl
It's only in the dark
Only in the dark when they come out
It's only in the dark

I've been put to bed
I've been put to bed
I've been put to bed
I've been put to bed

I don't know what you know
I don't know where you go
I don't know what you know
I don't know where you go
I don't know what you know
I don't know where you go

So what do you care for?
There's no one in the right
There's no one in the right
No one in the right

So what do you care for?
There's no one in the right
Say where
Say where you go away
Say where you go away

And I won't call her
