

Let/s Get Lost

The Twilight Sad

I'm losing, I'm losing you everyday
I see that I'm losing, I'm losing you everyday
And I'm losing, I'm losing you everyday
I know that I'm losing, I'm losing you everyday

I see it coming
I still do nothing
You won't let me in today
You're not the first
Run away from my words
Deaf to everything I say
I see it coming
I still do nothing
You won't let me in today
I'll do my worst
You can't be nursed
Much to our dismay

I'm losing, I'm losing you everyday
I see that I'm losing, I'm losing you everyday
And I'm losing, I'm losing you everyday
I know that I'm losing, I'm losing you everyday

But I'm still yours
I'm still yours, you know
I'm still yours
I'm still yours, you know

I see it coming
I still do nothing
You won't let me in today
I'll do my worst
You can't be nursed
Much to our dismay

It's just another heartache to me
It's just another heartache to me
It's just another heartache to me
It's just another heartache
It's just another heartache

We got lost
We got lost
I don't know what to do
I don't know what to do

We got lost
You know that we, we got lost
I don't know what to do
I don't know what to do

And I'm losing
I'm losing
I'm losing
I'm losing

We got lost

We got lost
We got lost
We got lost
We got lost
We got lost

I don't know what to do
I don't know what to do
